Usage Purpose

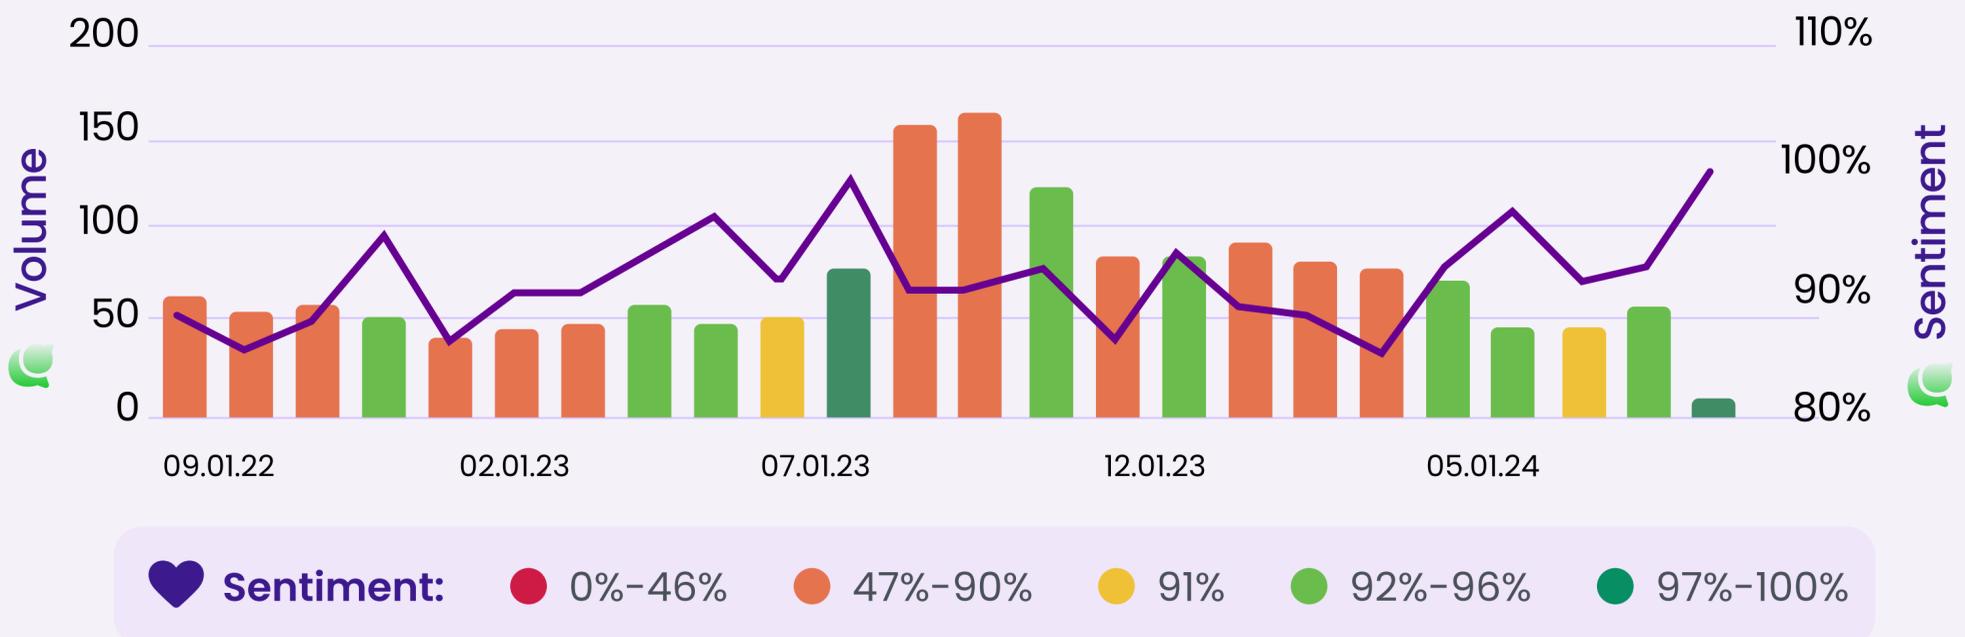

Positive Summary

There are many home storage containers that are the perfect size for meal prep and taking lunches to work or school, making them great for packing sandwiches and snacks. Made from high-quality and durable materials for long-term use, they are versatile enough for storing leftovers, cut vegetables, and other food items. They're also ideal for organizing clothes, school supplies, and craft materials. Suitable for traveling and on-the-go snacks, these containers are dishwasher safe and reusable, providing eco-friendly storage options for a variety of needs.

Negative Summary

Some containers are often not recommended for use as lunch bags for kids, as they struggle to securely store liquids or leak-prone foods. Users have reported challenges with opening and closing the containers, especially for children or individuals with arthritis. Additionally, they are not well-suited for storing large quantities of food or leftovers and are unsafe for microwave or dishwasher use. The durability is a concern, as lids and bags can break or rip easily, making them unreliable for daily use or for holding sandwiches and larger food items.

Sample Reviews:

Great size for packing a sandwich for my little one's school lunch box. The brown paper side is grease proof too. Such a great price for a lot of pieces. Even comes with a roll of "thank you" stickers. These will be perfect for packing holiday treats too. Definitely recommend.

260 Pack Bakery Bags with Window, 7.5x7.1", Sublaga Paper Sandwich Bags, Donut Bags To Go, Bakery Paper Bags for Treat, Snack, Cookie Waffle Cake Packaging

These lunch boxes have been a great choice for my kids starting school. Since purchasing 2 years ago and using regularly for my son's lunches, they have not cracked or warped. My son was always able to open and close them by himself, and I've put them in the dishwasher every time to clean and they have held up remarkably well. For kindergarten I would cut up a sandwich into 4 squares and put two of them in one compartment, two in the other, and then fill the remaining 2 compartments with a fruit and a veggie. This was a perfect amount for him at that age. As he is now getting older I send him with a full sandwich and use the compartments for sides. I am getting 4 more for my daughter who is starting school this year. **These have held up well and I'm pleased we've not needed to replace them as we head into our 3rd year of use now.**

Bentgo Easyboxes 4-Compartment Snack Containers - 8-Piece Set with 4 Trays & 4 Custom-Fit Lids to Seal in Freshness - Reusable Food Storage & Meal Prep Bento BPA-Free Containers (Brights)

I love how spacious these are! We use them for storing clothes that my kids have outgrown, and they're also perfect for school supplies when it's time to go back to school.

Size

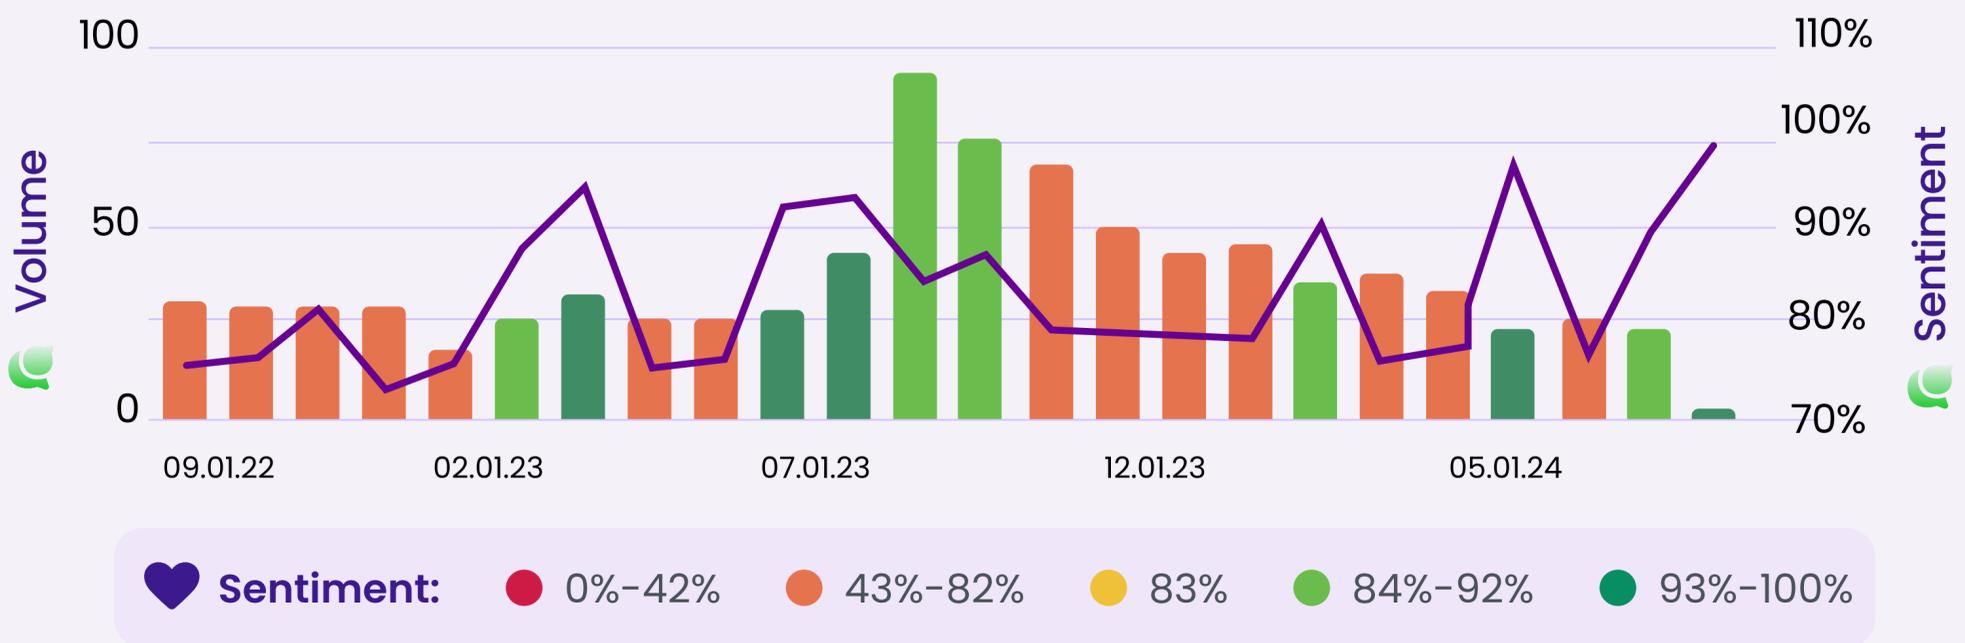

Positive Summary

The softshell food container is perfectly sized for meal prep and convenient for taking lunch to work or school. Consumers were delighted with a variety of sizes available in the container sets, because they offer versatility for storing different types of food. The smaller containers are ideal for sauces, snacks, and leftovers, while the larger ones are perfect for packing full lunches. Additionally, the containers are just the right size for school snacks and fit easily into lunch boxes, making them a practical choice for everyday use.

Negative Summary

Some consumers were surprised that containers were smaller than expected, making them unsuitable for storing larger items or portions. The bags are also too small for packing full lunches or snacks, limiting their practicality. Additionally, the lids often do not fit properly, which increases the risk of leaks, making these containers less reliable for everyday use.

Sentiment and Discussion Volume for the Size Topic

Sample Reviews:

As a college student and a part-time worker, the XL SoftShell food container has been a lifesaver. It's durable, easy to clean, and perfect for meal prepping. The snap-close feature keeps my food fresh and secure, making it a must-have for my hectic schedule. Highly recommend!

Big Bee, Little Bee - SoftShell XL Reusable Silicone Food Storage Container with Attached Clamshell Lid, Easy Cleaning, Snaps Closed, Microwave, Freezer & Dishwasher Safe (Grape)

This is great for back to school or just for snacking! It's very versatile! It really holds a lot or a little. Fits perfectly in lunch boxes. Perfect for little kids or big kids!

Bento Lunch Box, Reusable Bento Boxes Kids with 4 Compartments & Fork, Lunch Snack Containers for Kids Adults, Divided Food Storage Containers for School Work Travel, 4 Pack(Wheat)

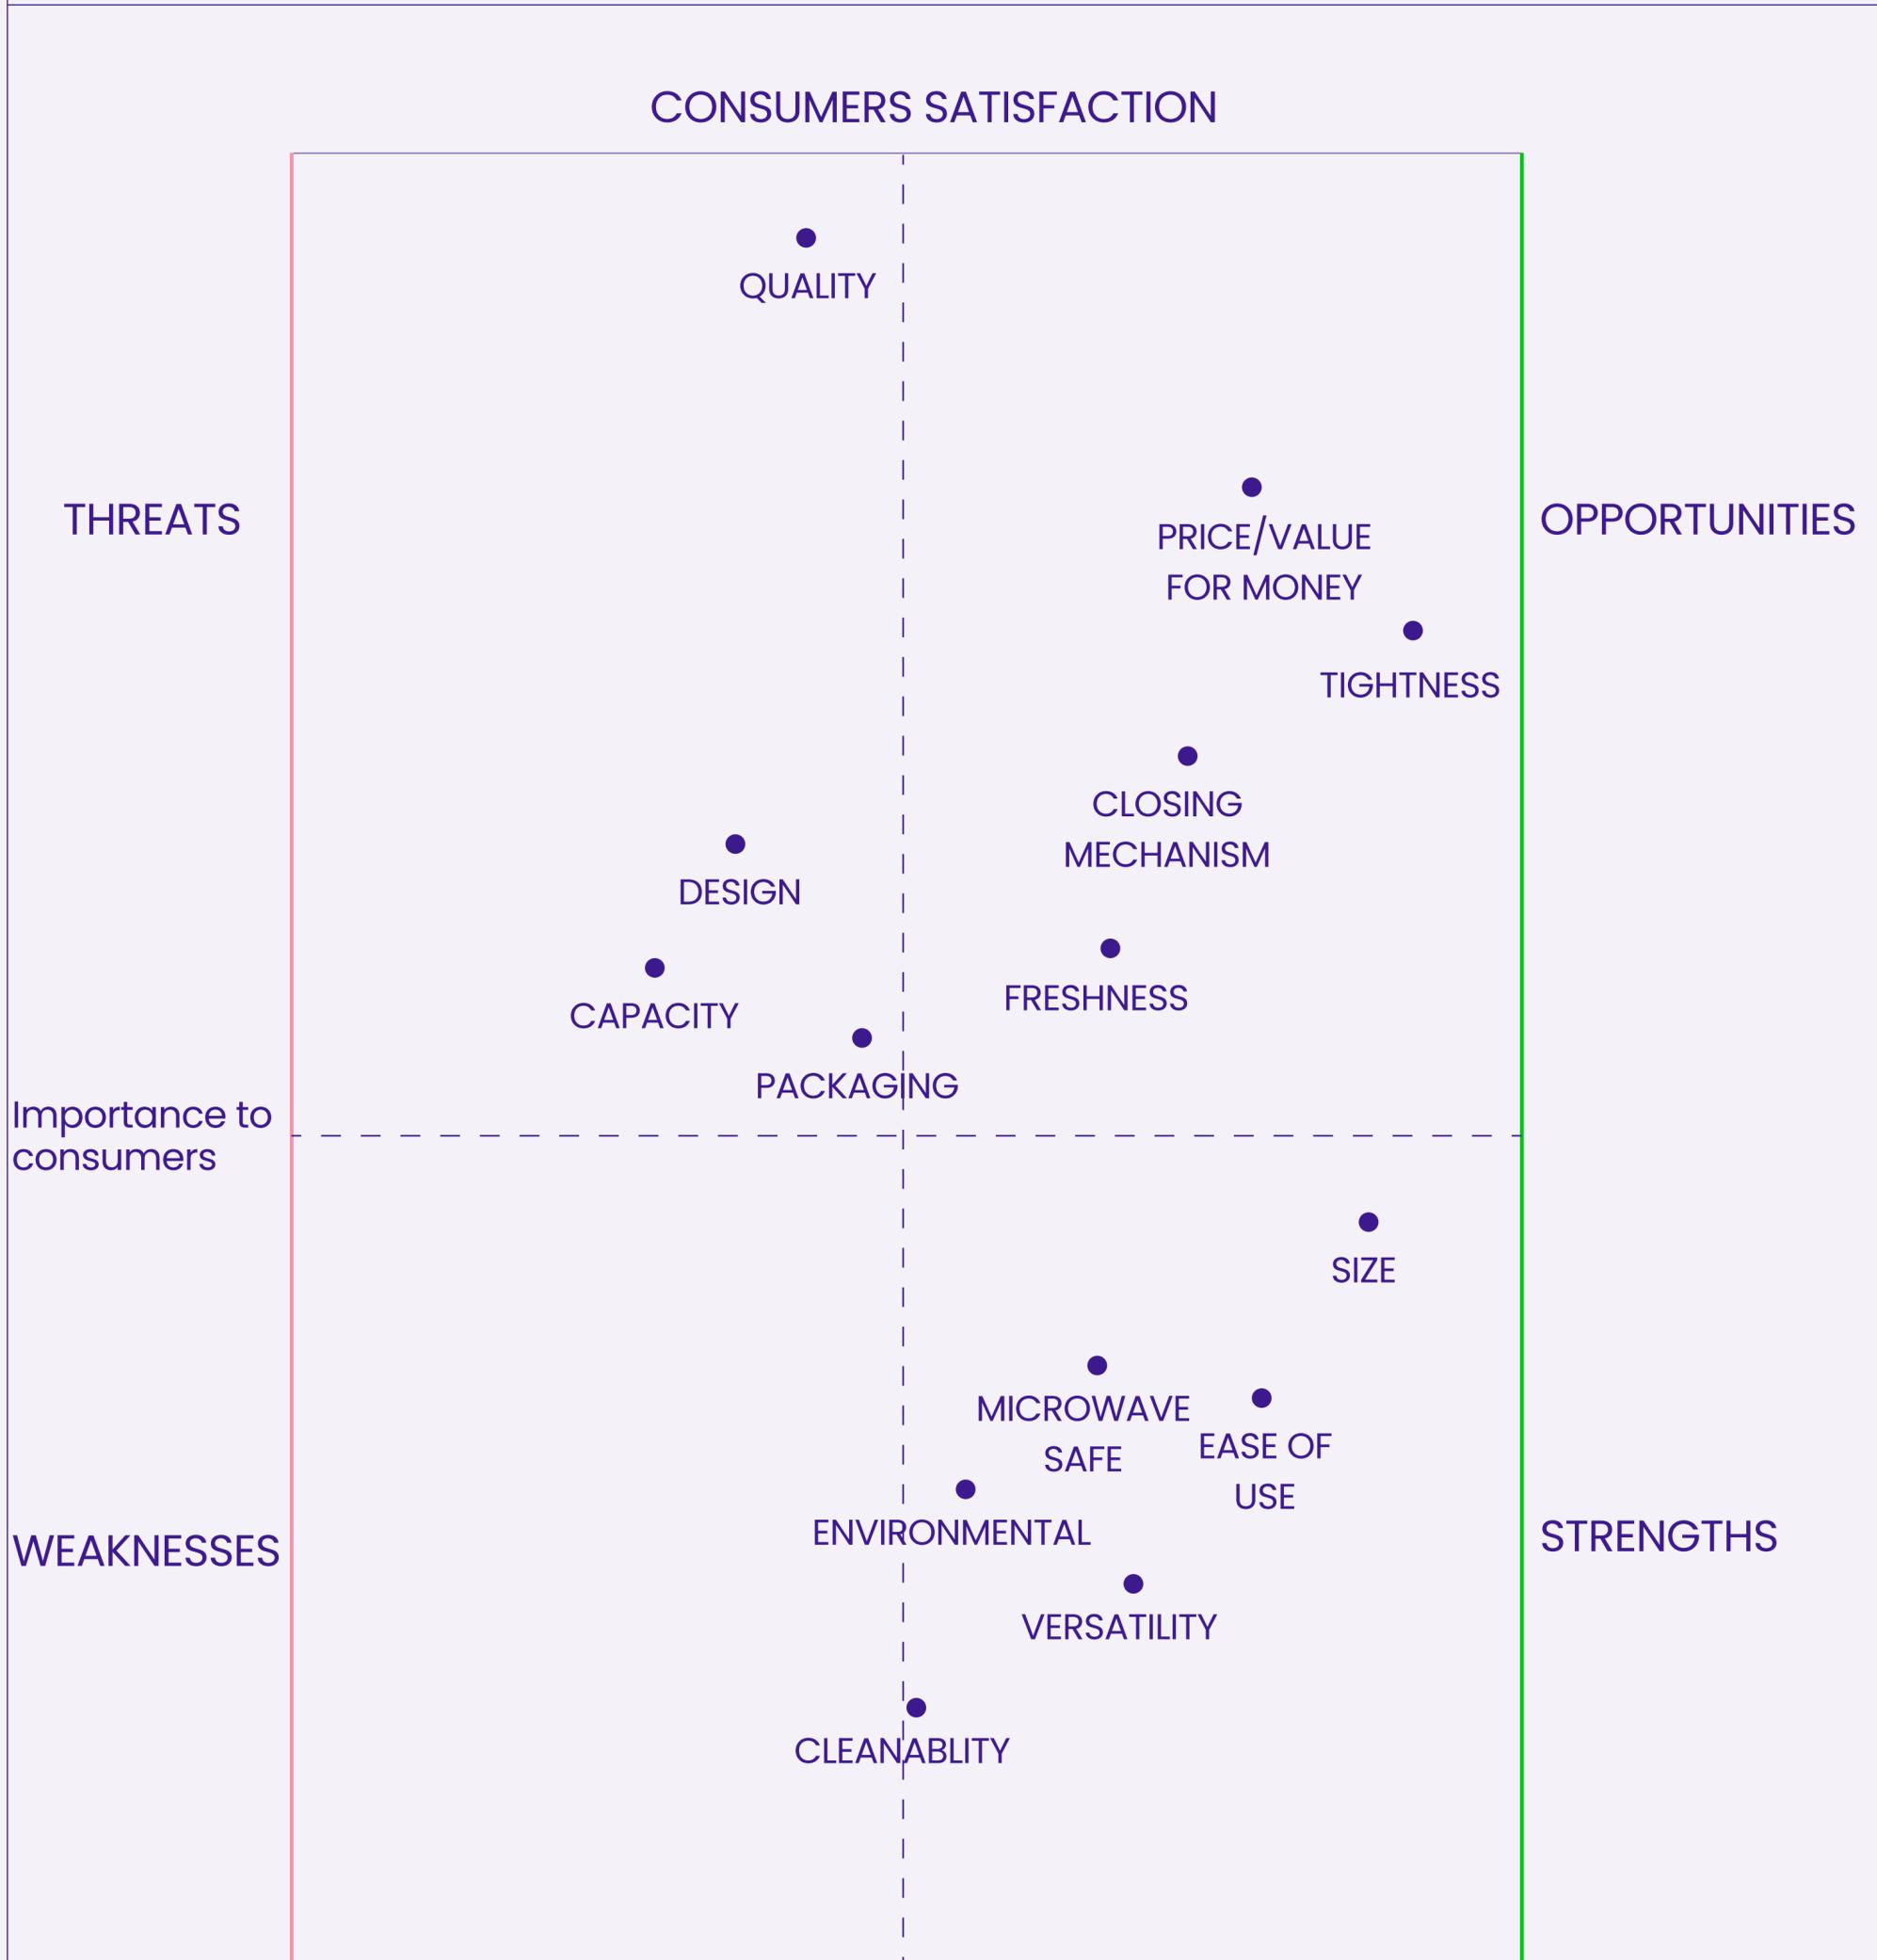

These containers are very good looking, they really seal contents and no spills are to be expected unless something very heavy squishes it. The original purpose is to send healthy snacks for the girls when they go to school, the material is holding up good against Cherry juice and salad dressing, the containers are not getting stains difficult to remove. The material is very easy to wash by hand or inside the dishwasher. **Size wise is perfect for a regular size fruit, seeds and some salad.** Well recommended.

ISSEVE 8Pack 6oz Silicone Snack Containers for Kids, Reusable Small Containers with Lids, Leak Proof Silicone Food Storage Containers, Stackable Kids Lunch Box for Daycare, School, Travel
